# Rabbit IgG anti-Goat IgG (F(ab')2)-unconj., MinX Hu

#### **General Information**

Catalog Number: SEC-182845 Physical State: Liquid (sterile filtered)

Quantity: 1,5 mg Reconstitution Volume:

**Reconstitution Buffer:** 

**Shipping Conditions:** Wet Ice

**Product Expiration** Expiration date is one (1) year from date of

opening.

**Antibody Host / Format** 

Host Species: Rabbit Clonality / Isotype / Clone: polyclonal Ig

Antibody Format: IgG whole molecule Concentration: 1.5 mg/mL by UV absorbance at 280 nm

Conjugation: unconjugated

Maximum Excitation / Emission: /

**Specificity** 

**Target Species:** Goat Immunogen: Goat IgG F(ab')2 fragment

**Antibody Specificity:** IgG (F(ab')2 This product was prepared from monospecific antiserum by

immunoaffinity chromatography using Goat IgG coupled to agarose beads followed by solid phase adsorption(s) to remove any unwanted reactivities. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Rabbit Serum, Goat IgG, Goat IgG F(ab')2 and Goat Serum. No reaction was observed against Goat IgG F(c) or Human

Serum Proteins.

Minimal Cross Reactivity: Human

## Formulation, Transport and Storage

Storage Buffer: 0.01 M Sodium Phosphate,

Fragment)

0.15 M Sodium Chloride, pH 7.2

Stabilizer: None

**Preservatives:** 0.01% (w/v) Sodium Azide

Store vial at  $4^\circ$  C prior to opening. This product is stable for several weeks at  $4^\circ$  C as an undiluted liquid. Dilute only prior to immediate use. For extended storage aliquot contents and freeze at -20° C or below. Avoid

cycles of freezing and thawing.

**Storage Temperature:** 4-8°C

#### **Application Recommendation**

Application: ELISA, Immunohistochemistry (IHC), Immunohistochemistry (Paraffin-embedded Sections),

Immunohistochemistry (frozen sections), Western Blot

This product is for In Vitro experimental use only. Not for Therapeutic or Diagnostic use.

ELISA 1:20.000 - 1:100.000, Immunohistochemistry (IHC) 1:1,000 - 1:5,000, Western Blot (WB) 1:2.000 -Dilution:

#### **Application Note:**

Anti-Goat IgG F(ab')2 antibody is suitable for ELISA, western blot, and immunohistochemistry, as well as other assays requiring lot-to-lot consistency.

# **Background Information**

Anti-Goat IgG F(ab')2 Antibody generated in rabbit is a proteolytic fragment of immunoglobulin G (IgG) obtained by limited digestion with the enzyme pepsin under controlled conditions of temperature, time and pH. F(ab')2 molecules lack the Fc portion of IgG and therefore receptors that bind goat IgG F(c) will not bind goat IgG F(ab')2 molecules.

## **Safety Information**

This reagent contains sodium azide (a poisonous and hazardous substance) as preservative. Although this concentration is not regarded as dangerous to health, appropriate measures should be taken to avoid skin and eye contact, inhalation, and ingestion. Standard Laboratory Practices should be followed when handling this material.

## Disclaimer

This product is warranted to perform in conformance with product specifications and to be free from defects in material and workmanship. Products are supplied for research use only. The warranty provided herein is valid only when used by properly trained individuals. Unless otherwise stated, this warranty is limited to one year from date of shipment when the product is subjected to normal, proper and intended usage. Buyer's exclusive remedy for non-conforming products during the warranty period is limited to replacement of or refund for the non-conforming product(s). There is no obligation to replace products as the result of accident or disaster or inappropriate use of the products in a manner for which they were not designed, or improper storage and handling of the products.
