

Donkey IgG anti-Guinea Pig IgG (H+L)-Biotin, MinX Bo,Ck,Go,Hm,Ho,Hu,Ms,Rb,Rt,Sh

General Information

Catalog Number: SI	EC-182936	Physical State:	Lyophilized
Quantity:	1 mg	Reconstitution Volume:	1.0 mL
		Reconstitution Buffer:	Restore with deionized water (or equivalent)
		Shipping Conditions:	at room temperature
		Product Expiration	Expiration date is one (1) year from date of opening.
Antibody Host / For	mat		
Host Species: D	onkey	Clonality / Isotype / Clon	e: polyclonal Ig
Antibody Format:	gG whole molecule	Concentration:	1.0 mg/mL by UV absorbance at 280 nr
		Conjugation:	Biotin
		Maximum Excitation / Emission: /	
Specificity			
Target Species:	Guinea Pig	Immunogen:	Guinea Pig IgG whole molecule
Antibody Specificity: IgG (H+L)		This product was prepared from monospecific antiserum by immunoaffinity chromatography using Guinea Pig IgG coupled to agaros beads followed by conjugation to fluorochrome and extensive dialysis against the buffer stated above. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-biotin, anti-Donkey Serum Guinea Pig IgG and Guinea Pig Serum. No reaction was observed again Bovine, Chicken, Goat, Hamster, Horse, Human, Mouse, Rabbit, Rat and Sheep Serum Proteins. This antibody will react with heavy chains of Guinea Pig IgG and with light chains of most Guinea Pig immunoglobulir Minimal Cross Reactivity: Bovine, Chicken, Goat, Hamster generally, Horse, Human, Mouse, Rabbit, Rat, Shoon	
		against the buffer stated resulted in a single precip Guinea Pig IgG and Guine Bovine, Chicken, Goat, Ha Sheep Serum Proteins. Th Guinea Pig IgG and with h	above. Assay by immunoelectrophoresis itin arc against anti-biotin, anti-Donkey Serum, a Pig Serum. No reaction was observed agains imster, Horse, Human, Mouse, Rabbit, Rat and his antibody will react with heavy chains of ght chains of most Guinea Pig immunoglobulin Bovine, Chicken, Goat, Hamster generally,
Formulation. Transp	port and Storage	against the buffer stated resulted in a single precip Guinea Pig IgG and Guine Bovine, Chicken, Goat, Ha Sheep Serum Proteins. Th Guinea Pig IgG and with h	above. Assay by immunoelectrophoresis itin arc against anti-biotin, anti-Donkey Serum, a Pig Serum. No reaction was observed agains imster, Horse, Human, Mouse, Rabbit, Rat and his antibody will react with heavy chains of ght chains of most Guinea Pig immunoglobuling
Formulation, Transp Storage Buffer: 0.02	-	against the buffer stated resulted in a single precip Guinea Pig IgG and Guine Bovine, Chicken, Goat, Ha Sheep Serum Proteins. TI Guinea Pig IgG and with li Minimal Cross Reactivity Horse, Human, N	above. Assay by immunoelectrophoresis itin arc against anti-biotin, anti-Donkey Serum, a Pig Serum. No reaction was observed agains imster, Horse, Human, Mouse, Rabbit, Rat and his antibody will react with heavy chains of ght chains of most Guinea Pig immunoglobulin Bovine, Chicken, Goat, Hamster generally, Mouse, Rabbit, Rat, Sheep
Storage Buffer: 0.02	M Potassium	against the buffer stated resulted in a single precip Guinea Pig IgG and Guine Bovine, Chicken, Goat, Ha Sheep Serum Proteins. Th Guinea Pig IgG and with h Minimal Cross Reactivity Horse, Human, N Store vial at 4° C prior to a contents and freeze at -20	above. Assay by immunoelectrophoresis itin arc against anti-biotin, anti-Donkey Serum, a Pig Serum. No reaction was observed agains imster, Horse, Human, Mouse, Rabbit, Rat and his antibody will react with heavy chains of ght chains of most Guinea Pig immunoglobulin Bovine, Chicken, Goat, Hamster generally, Mouse, Rabbit, Rat, Sheep
Storage Buffer: 0.02 Phosphate, 0.15 M Soc Stabilizer: 10 m	M Potassium	against the buffer stated resulted in a single precip Guinea Pig IgG and Guine Bovine, Chicken, Goat, Ha Sheep Serum Proteins. Th Guinea Pig IgG and with li Minimal Cross Reactivity Horse, Human, N Store vial at 4° C prior to a contents and freeze at -20 thawing. Centrifuge prod room temperature. This	above. Assay by immunoelectrophoresis itin arc against anti-biotin, anti-Donkey Serum, a Pig Serum. No reaction was observed agains imster, Horse, Human, Mouse, Rabbit, Rat and his antibody will react with heavy chains of ght chains of most Guinea Pig immunoglobulin Bovine, Chicken, Goat, Hamster generally, Mouse, Rabbit, Rat, Sheep

Product Datasheet / Instruction for use

SEC-182936 2023-02-23 2 / 2

Application Recommendation

Application: ELISA, Immunohistochemistry (IHC), Immunohistochemistry (Paraffin-embedded Sections), Immunohistochemistry (frozen sections), Western Blot

Dilution: ELISA 1:10.000 - 1:50.000, Immunohistochemistry (IHC) 1:1,000 - 1:5,000, Western Blot (WB) 1:2.000 - 1:10.000

Application Note:

This product is designed for immunofluorescence microscopy, fluorescence based plate assays (FLISA) and fluorescent western blotting. This product is also suitable for multiplex analysis, including multicolor imaging, utilizing various commercial platforms.

Background Information

Anti-Guinea Pig IgG Biotin Antibody generated in donkey detects guinea pig IgG. Secreted as part of the adaptive immune response by plasma B cells, immunoglobulin G constitutes 75% of serum immunoglobulins. Immunoglobulin G binds to viruses, bacteria, as well as fungi and facilitates their destruction or neutralization via agglutination (and thereby immobilizing them), activation of the compliment cascade, and opsinization for phagocytosis. The whole IgG molecule possesses both the F(c) region, recognized by high-affinity Fc receptor proteins, as well as the F(ab) region possessing the epitope-recognition site. Both heavy and light chains of the antibody molecule are present. Secondary Antibodies are available in a variety of formats and conjugate types. When choosing a secondary antibody product, consideration must be given to species and immunoglobulin specificity, conjugate type, fragment and chain specificity, level of cross-reactivity, and host-species source and fragment composition.

Safety Information

This reagent contains sodium azide (a poisonous and hazardous substance) as preservative. Although this concentration is not regarded as dangerous to health, appropriate measures should be taken to avoid skin and eye contact, inhalation, and ingestion. Standard Laboratory Practices should be followed when handling this material.

Disclaimer

This product is warranted to perform in conformance with product specifications and to be free from defects in material and workmanship. Products are supplied for research use only. The warranty provided herein is valid only when used by properly trained individuals. Unless otherwise stated, this warranty is limited to one year from date of shipment when the product is subjected to normal, proper and intended usage. Buyer's exclusive remedy for non-conforming products during the warranty period is limited to replacement of or refund for the non-conforming product(s). There is no obligation to replace products as the result of accident or disaster or inappropriate use of the products in a manner for which they were not designed, or improper storage and handling of the products.

This product is for In Vitro experimental use only. Not for Therapeutic or Diagnostic use.
