

Product Information

Catalog Number:	GtxMu-003-L2ALP
Product:	Goat anti-Mouse IgG (H&L) - F(ab) ² Fragment, ALP Conjugate, min x w/bovine, goat, human, rabbit, or rat IgG (highly absorbed against rat IgG)
Physical State:	Clear, colorless liquid
Size:	0.5 mg
Antibody Concentration:	1.50 mg/ml (E 1% at 280 nm = 13.0) (concentration lot dependent)
Conjugation:	Alkaline Phosphatase
Suggested Dilution Range:	1:500 - 1:2.000 for most applications The optimal working dilution should be determined by the investigator.
Buffer:	30 mM Triethanolamine, pH 7.2, 5 mM Magnesium Chloride, 0.1 mM Zinc Chloride
Stabilizer:	1% (w/v) Bovine Serum Albumin (IgG-free, Protease-Free)
Preservative:	0.05% (w/v) Sodium Azide
Purification:	Affinity purified using solid phase Mouse IgG
Purity:	> 90% based on SDS-PAGE Small amounts of intact IgG may be present.
Antibody Specificity:	Based on IEP, this antibody reacts with: · heavy (γ) chains on mouse IgG · light chains on all mouse immunoglobulins Based on IEP, no reactivity is observed to: · non-immunoglobulin mouse serum proteins · bovine, goat, human, rabbit or rat IgG Based on ELISA, this antibody has < 1% reactivity to: · rat IgG
Reconstitution and Storage:	Store undiluted liquid at 2-8 °C. For storage at -20 °C, dilute with an equal volume of glycerol (Molecular Grade, purity > 99,5%) to prevent loss of enzymatic activity. Prepare working dilutions prior to use and then discard. Product is stable for up to 1 year from date of receipt. Note: adding glycerol reduces the stated protein concentration and dilution range by one-half. Use of low quality glycerol may affect conjugate activity. The expiration date may be extended if test results are acceptable for the intended use.
Safety Information:	Standard Laboratory Practices should be followed when handling this material. The chemical, physical, and toxicological properties of this material have not been thoroughly investigated. The antibody contains 0.05% sodium azide (a poisonous and hazardous substance) as preservative. Although this concentration is not regarded as dangerous to health, appropriate measures should be taken to avoid skin and eye contact, inhalation, and ingestion.

Note: This information sheet contains general product information only. For detailed lot specific information consult the vial label and the data sheet supplied by the manufacturer upon delivery of the product.

This product is for In Vitro experimental use only. Not for Therapeutic or Diagnostic use.

Manufacturer:

ImmunoReagents, Inc.
6003 Chapel Hill Road, Suite 153
Raleigh, NC 27607, USA
