

Product Information

Catalog Number:	004-000-003
Product:	ChromPure Dog IgG, whole molecule
Physical State:	Sterile-filtered liquid
Size:	10.0 mg (This product has been overfilled to ensure total recovery of stated quantity.)
IgG Concentration:	11.4 mg/ml
Conjugate:	unconjugated
Buffer:	0.01M Sodium Phosphate, 0.25M NaCl, pH 7.6
Preservative:	None
Purity:	Based on immunoelectrophoresis at an antigen concentration of 20 mg/ml, the pattern of precipitation against anti-dog whole serum is the same as that against anti-dog IgG, Fc fragment specific.
Storage:	Store at 2-8°C under sterile conditions. Prepare working dilution fresh each day. Expiration date: one year from date of receipt. The expiration date may be extended if test results are acceptable for the intended use.
Safety Information:	This product contains no substances considered to be hazardous to health. Although the product is classified as non-hazardous, Standard Laboratory Practices should be followed when handling this material.

Note: This information sheet contains general product information only. For detailed lot specific information consult the vial label and the data sheet supplied by the manufacturer upon delivery of the product.

This product is for In Vitro experimental use only. Not for Therapeutic or Diagnostic use.
