

Product Datasheet / Instruction for use

# Donkey IgG anti-Goat IgG (H+L)-Biotin, MinX none

## **General Information**

Catalog Number: SEC-182889	Physical State:	Lyophilized			
Quantity: 2 mg	Reconstitution Volume:	1.0 mL			
	Reconstitution Buffer:	Restore with deionized water (or equivalent)			
	Shipping Conditions:	at room temperature Expiration date is one (1) year from date of opening.			
	Product Expiration				
Antibody Host / Format					
Host Species: Donkey	Clonality / Isotype / Clor	ne: polyclonal Ig			
Antibody Format: IgG whole molecule	Concentration:	2.0 mg/mL by UV absorbance at 280 nn			
	Conjugation:	Biotin			
	Maximum Excitation / Emission: /				
Specificity	I				
Target Species:GoatAntibody Specificity:IgG (H+L)	Immunogen:	Anti-Goat IgG (H&L) was produced by repeate immunization with goat IgG whole molecule i donkey.			
	This product was prepared from monospecific antiserum by immunoaffinity chromatography using Goat IgG coupled to agarose bea followed by solid phase adsorption(s) to remove any unwanted reactivities. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-biotin, anti-Donkey Serum, Goat IgG and Goat Serum.				
	Minimal Cross Reactivity: none				
Formulation, Transport and Storage	Ι				
<b>Storage Buffer:</b> 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2	Store vial at 4° C prior to restoration. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at				
Chald Barrier A. Comment	room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.				
Stabilizer:10 mg/mL Bovine SerumAlbumin (BSA) - Immunoglobulin and Proteasefree	room temperature. This	•			
Albumin (BSA) - Immunoglobulin and Protease	room temperature. This	•			

This product is for In Vitro exp	erimental use only. Not for Ther	apeutic or Diagnostic use.

#### Product Datasheet / Instruction for use

- Application: ELISA, Immunohistochemistry (IHC), Immunohistochemistry (Paraffin-embedded Sections), Immunohistochemistry (frozen sections), Western Blot
- **Dilution:** ELISA 1:200.000 - 1:250.000, Immunohistochemistry (IHC) 1:1,000 - 1:5,000, Western Blot (WB) 1:2.000 -1:10.000

#### **Application Note:**

Antibody Anti-Goat IgG (H&L) is suitable for immunoblotting (western or dot blot), ELISA, immunoelectron microscopy and immunohistochemistry as well as other antibody-based enzymatic assays requiring lot-to-lot consistency.

#### **Background Information**

Anti-Goat IgG Biotin Antibody generated in donkey detects goat IgG. Secreted as part of the adaptive immune response by plasma B cells, immunoglobulin G constitutes 75% of serum immunoglobulins. Immunoglobulin G binds to viruses, bacteria, as well as fungi and facilitates their destruction or neutralization via agglutination (and thereby immobilizing them), activation of the compliment cascade, and opsinization for phagocytosis. The whole IgG molecule possesses both the F(c) region, recognized by high-affinity Fc receptor proteins, as well as the F(ab) region possessing the epitope-recognition site. Both heavy and light chains of the antibody molecule are present.

### **Safety Information**

This reagent contains sodium azide (a poisonous and hazardous substance) as preservative. Although this concentration is not regarded as dangerous to health, appropriate measures should be taken to avoid skin and eye contact, inhalation, and ingestion. Standard Laboratory Practices should be followed when handling this material.

#### Disclaimer

This product is warranted to perform in conformance with product specifications and to be free from defects in material and workmanship. Products are supplied for research use only. The warranty provided herein is valid only when used by properly trained individuals. Unless otherwise stated, this warranty is limited to one year from date of shipment when the product is subjected to normal, proper and intended usage. Buyer's exclusive remedy for non-conforming products during the warranty period is limited to replacement of or refund for the non-conforming product(s). There is no obligation to replace products as the result of accident or disaster or inappropriate use of the products in a manner for which they were not designed, or improper storage and handling of the products.

This product is for In Vitro experimental use only. Not for Therapeutic or Diagnostic use.
