FIT FOR SCIENCE

## Goat IgG anti-Human IgG (Fc)-FITC, MinX Ms

## General Information

| Catalog Number: | SEC-182990 | Physical State: | Lyophilized |
| :--- | :---: | :--- | :--- |
| Quantity: | 1 mg | Reconstitution Volume: | 1.0 mL |
| Reconstitution Buffer: | Restore with deionized water (or equivalent) |  |  |
| Shipping Conditions: | at room temperature |  |  |
| Product Expiration | Expiration date is one (1) year from date of <br> opening. |  |  |

## Antibody Host / Format

| Host Species: | Goat | Clonality / Isotype / Clone: | polyclonal Ig |
| :--- | :--- | :--- | :--- |
| Antibody Format: | IgG whole molecule | Concentration: | $1.0 \mathrm{mg} / \mathrm{mL}$ by UV absorbance at 280 nm |
|  |  | Conjugation: | FITC (Fluoresceinisothiocyanat) |
| Maximum Excitation / Emission:492 $\mathrm{nm} / 520 \mathrm{~nm}$ |  |  |  |

| Target Species: | Human | Immunogen: Human IgG F (c) fragment |
| :---: | :---: | :---: |
| Antibody Specificity: | IgG (Fc Fragment) | This product was prepared from monospecific antiserum by immunoaffinity chromatography using Human IgG coupled to agarose beads followed by solid phase adsorption(s) to remove any unwanted reactivities. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Fluorescein, anti-Goat Serum, Human IgG, Human $\operatorname{lgG} F(c)$ and Human Serum. No reaction was observed against Human $\operatorname{IgG} F\left(a^{\prime}\right) 2$ or Mouse Serum Proteins. <br> Minimal Cross Reactivity: Mouse |

## Formulation, Transport and Storage

Storage Buffer: 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2

Stabilizer: $\quad 10 \mathrm{mg} / \mathrm{mL}$ Bovine Serum
Albumin (BSA) - Immunoglobulin and Protease free

Preservatives: $0.01 \%(w / v)$ Sodium Azide

Store vial at $4^{\circ} \mathrm{C}$ prior to restoration. For extended storage aliquot contents and freeze at $-20^{\circ} \mathrm{C}$ or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at $4^{\circ} \mathrm{C}$ as an undiluted liquid. Dilute only prior to immediate use.

Storage Temperature: $\quad 4-8^{\circ} \mathrm{C}$

## Application Recommendation

Application: FLISA, Flow Cytometry, Immunofluorescence

| This product is for In Vitro experimental use only. Not for Therapeutic or Diagnostic use. |  |  |  |  |  |

Product Datasheet／Instruction for use

Dilution：FLISA 1：10．000－1：50．000，Flow cytometry 1：500－1：2，500，Immunofluorescence 1：1，000－1：5，000

## Application Note：

Anti－Human IgG F（c）Fluorescein Conjugated is designed for immunofluorescence microscopy，fluorescence based plate assays（FLISA）and fluorescent western blotting．This product is also suitable for multiplex analysis，including multicolor imaging，utilizing various commercial platforms．

## Background Information

Anti－Human IgG F（c）Fluorescein Conjugated generated in goat detects Human F（c）．A proteolytic fragment of immunoglobulin $\mathrm{G}(\mathrm{IgG})$ obtained by limited digestion with the enzyme papain under controlled conditions of temperature， time and pH ．Receptors bind the Fc portion of human IgG and often this fragment is removed from immunoglobulins to minimize receptor binding and lower background reactivity．Secondary Antibodies are available in a variety of formats and conjugate types．When choosing a secondary antibody product，consideration must be given to species and immunoglobulin specificity，conjugate type，fragment and chain specificity，level of cross－reactivity，and host－species source and fragment composition．F（c）Antibody is ideal for investigators who routinely perform flow cytometry，immunohistochemistry or IHC and other immunoassays．

## Safety Information

This reagent contains sodium azide（a poisonous and hazardous substance）as preservative．Although this concentration is not regarded as dangerous to health，appropriate measures should be taken to avoid skin and eye contact，inhalation，and ingestion．Standard Laboratory Practices should be followed when handling this material．

## Disclaimer

This product is warranted to perform in conformance with product specifications and to be free from defects in material and workmanship．Products are supplied for research use only．The warranty provided herein is valid only when used by properly trained individuals．Unless otherwise stated，this warranty is limited to one year from date of shipment when the product is subjected to normal，proper and intended usage．Buyer＇s exclusive remedy for non－conforming products during the warranty period is limited to replacement of or refund for the non－conforming product（s）．There is no obligation to replace products as the result of accident or disaster or inappropriate use of the products in a manner for which they were not designed，or improper storage and handling of the products．

This product is for In Vitro experimental use only．Not for Therapeutic or Diagnostic use．
