

Product Datasheet / Instruction for use

Goat IgG anti-Human IgM (μ)-HRPO, MinX none

General Information

Catalog Number: SEC	C-183025	Physical State:	Lyophilized			
Quantity:	1 mg	Reconstitution Volume:	1.0 mL			
		Reconstitution Buffer:	Restore with deionized water (or equivalent)			
		Shipping Conditions:	at room temperature			
		Product Expiration	Expiration date is one (1) year from date of opening.			
Antibody Host / Form	nat					
Host Species: Go	at	Clonality / Isotype / Clon	ne: polyclonal Ig			
Antibody Format: IgG	whole molecule	Concentration:	1.0 mg/mL by UV absorbance at 280 nm			
		Conjugation:	Horseradish Peroxidase (HRP)			
		Maximum Excitation / Emission: /				
Specificity						
Target Species:	Human	Immunogen:	Human IgM whole molecule			
Antibody Specificity:	lgM (μ-Chain/ Fc Fragment)	Human IgM (mu chain) Antibody, Peroxidase Conjugated, was prepared from monospecific antiserum by immunoaffinity chromatography using antigens coupled to agarose beads followed by solid phase adsorption(s) to remove any unwanted reactivities. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Peroxidase, anti-Goat Serum, Human IgM and Human Serum. No reaction was observed again other human heavy or light chain proteins.				
		Minimal Cross Reactivity: none				
Formulation, Transpo	ort and Storage					
Storage Buffer:0.02 M PotassiumPhosphate,0.15 M Sodium Chloride, pH 7.2Stabilizer:10 mg/mL Bovine SerumAlbumin (BSA) - Immunoglobulin and Proteasefree		Store vial at 4° C prior to restoration. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.				
Preservatives: 0.01% (w/v) Gentamicin Sulfate		Storage Temperature: 4-8°C				
Application Recommo	endation					

This product is for In Vitro experimental use only. Not for Therapeutic or Diagnostic use.

Product Datasheet / Instruction for use

Application: ELISA, Immunohistochemistry (IHC), Immunohistochemistry (Paraffin-embedded Sections), Immunohistochemistry (frozen sections), Western Blot

Dilution: ELISA 1:180.000, Immunohistochemistry (IHC) 1:500 - 1:2,500, Western Blot (WB) 1:2.000 - 1:20.000

Application Note:

Anti-Human IgM (mu heavy chain) Peroxidase is suitable for immunoassays where specificity to the immunoglobulin mu chain region is desired. Antibody has been tested by ELISA, western blot immunoblot, and immunohistochemistry. Optimal concentrations in immunoassays should be determined by the researcher.

Background Information

Anti-Human IgM (mu heavy chain) Peroxidase generated in goat detects specifically Human IgM mu heavy chain. Immunoglobulin M is the largest antibody isotype and the first to be secreted against an initial exposure to antigen. IgM is predominantly produced in the spleen. Formed from covalently linking 5 immunoglobulins together. Anti-Human IgM mu chain antibody is ideal for investigators in Immunology, Microbiology, and Cell Biology.

Safety Information

This reagent contains Gentamicin Sulfate (a poisonous and hazardous substance) as preservative. Although this concentration is not regarded as dangerous to health, appropriate measures should be taken to avoid skin and eye contact, inhalation, and ingestion. Standard Laboratory Practices should be followed when handling this material.DO NOT ADD SODIUM AZIDE! Use of Sodium Azide as a preservative will substantially inhibit the enzyme activity of horseradish peroxidase!

Disclaimer

This product is warranted to perform in conformance with product specifications and to be free from defects in material and workmanship. Products are supplied for research use only. The warranty provided herein is valid only when used by properly trained individuals. Unless otherwise stated, this warranty is limited to one year from date of shipment when the product is subjected to normal, proper and intended usage. Buyer's exclusive remedy for non-conforming products during the warranty period is limited to replacement of or refund for the non-conforming product(s). There is no obligation to replace products as the result of accident or disaster or inappropriate use of the products in a manner for which they were not designed, or improper storage and handling of the products.

This product is for In Vitro experimental use only. Not for Therapeutic or Diagnostic use.
