

Product Datasheet / Instruction for use

# Rabbit IgG anti-Human IgA-Biotin, MinX none

## **General Information**

Catalog Number: SEC	atalog Number: SEC-183089 Physical State: Lyophilized				
Quantity:	1 mg	Reconstitution Volume:	1.0 mL		
		<b>Reconstitution Buffer:</b>	Restore with deionized water (or equivalent)		
		Shipping Conditions:	at room temperature		
		Product Expiration	Expiration date is one (1) year from date of opening.		
Antibody Host / Form	nat				
Host Species: Ral	bbit	Clonality / Isotype / Clon	ne: polyclonal Ig		
Antibody Format: IgG	6 whole molecule	Concentration:	1.0 mg/mL by UV absorbance at 280 nn		
		Conjugation:	Biotin		
		Maximum Excitation / Emission: /			
Specificity					
Target Species:	Human	Immunogen:	Human IgA alpha heavy chain		
Antibody Specificity:	IgA (Alpha-Kette / Fc-Fragment)	This product was prepared from monospecific antiserum by immunoaffinity chromatography using antigens coupled to agarose bea followed by solid phase adsorption(s) to remove any unwanted reactivities. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-biotin, anti-Rabbit Serum, Human IgA and Human Serum. No reaction was observed against Human IgG or IgM. Specificity was confirmed by ELISA minimal cross reactivity against othe human heavy or light chain isotypes.			
		precipitin arc against anti Human Serum. No reacti Specificity was confirmed	-biotin, anti-Rabbit Serum, Human IgA and on was observed against Human IgG or IgM. by ELISA minimal cross reactivity against other

#### Product Datasheet / Instruction for use

Application: ELISA, Immunohistochemistry (IHC), Immunohistochemistry (Paraffin-embedded Sections), Immunohistochemistry (frozen sections), Western Blot

**Dilution:** ELISA 1:5,000 - 1:20,000, Immunohistochemistry (IHC) 1:250 - 1:1,000, Western Blot (WB) 1:500 - 1:2.000

### **Application Note:**

This product has been assayed against 1.0 ug of Human IgA in a standard capture ELISA using Peroxidase Conjugated Streptavidin #S000-03 and ABTS (2,2'-azino-bis-[3-ethylbenthiazoline-6-sulfonic acid]) code # ABTS-100 as a substrate for 30 minutes at room temperature. A working dilution of 1:10,000 to 1:100,000 of the reconstitution concentration is suggested for this product.

### **Background Information**

Anti-Human IgA Biotin Antibody generated in rabbit detects immunoglobulin A (alpha chain) from human. Immunoglobulin A (IgA) is an antibody that plays a critical role in mucosal immunity. IgA has two subclasses (IgA1 and IgA2) and can exist in a dimeric form called secretory IgA (sIgA). Secondary Antibodies are available in a variety of formats and conjugate types. When choosing a secondary antibody product, consideration must be given to species and immunoglobulin specificity, conjugate type, fragment and chain specificity, level of cross-reactivity, and host-species source and fragment composition.

### **Safety Information**

This reagent contains sodium azide (a poisonous and hazardous substance) as preservative. Although this concentration is not regarded as dangerous to health, appropriate measures should be taken to avoid skin and eye contact, inhalation, and ingestion. Standard Laboratory Practices should be followed when handling this material.

#### Disclaimer

This product is warranted to perform in conformance with product specifications and to be free from defects in material and workmanship. Products are supplied for research use only. The warranty provided herein is valid only when used by properly trained individuals. Unless otherwise stated, this warranty is limited to one year from date of shipment when the product is subjected to normal, proper and intended usage. Buyer's exclusive remedy for non-conforming products during the warranty period is limited to replacement of or refund for the non-conforming product(s). There is no obligation to replace products as the result of accident or disaster or inappropriate use of the products in a manner for which they were not designed, or improper storage and handling of the products.

This product is for In Vitro experimental use only. Not for Therapeutic or Diagnostic use.
