

Product Datasheet / Instruction for use

# Goat IgG anti-Mouse IgG2b (Fc)-unconj., MinX none

## **General Information**

Catalog Number: SEC	C-183117	Physical State:	Liquid (sterile filtered)	
Quantity:	1 mg	Reconstitution Volume	:	
		Reconstitution Buffer:		
		Shipping Conditions:	Wet Ice	
		Product Expiration	Expiration date is one (1) year from date of opening.	
Antibody Host / Form	nat			
Host Species: Go	at	Clonality / Isotype / Clo	one: polyclonal Ig	
Antibody Format: IgG	whole molecule	Concentration:	1.0 mg/mL by UV absorbance at 280 nr	
		Conjugation:	unconjugated	
		Maximum Excitation / Emission: /		
Specificity		I		
Target Species:	Mouse	Immunogen:	Mouse IgG2b heavy chain	
Antibody Specificity:	lgG2b (IgG Fc gamma 2b)	Anti-MOUSE IgG2b (Gamma 2b chain) Antibody was prepared from monospecific antiserum by immunoaffinity chromatography using antigens coupled to agarose beads followed by solid phase adsorption(s to remove any unwanted reactivities. Assay by immunoelectrophoresi resulted in a single precipitin arc against anti-Goat Serum, Mouse Serur and Mouse IgG2b. No reaction was observed against Bovine, Human, a Rabbit Serum Proteins. Specificity was confirmed by ELISA at less than of target signal.		
		Minimal Cross Reactivity: none		
Formulation, Transpo	ort and Storage	1		
Storage Buffer:0.02 M PotassiumPhosphate, 0.15 M Sodium Chloride, pH 7.2Stabilizer:None		Store vial at 4° C prior to opening. This product is stable at 4° C as an undiluted liquid. Dilute only prior to immediate use. For extended storage, mix with an equal volume of glycerol, aliquot contents and free at -20° C or below. Avoid cycles of freezing and thawing.		
			a cycles of neezing and thawing.	
Stabilizer: None	(w/v) Sodium Azide	Storage Temperature:	4-8°C	

Application: ELISA, Immunohistochemistry (IHC), Immunohistochemistry (Paraffin-embedded Sections), Immunohistochemistry (frozen sections), Western Blot

This product is for In Vitro experimental use only. Not for Therapeutic or Diagnostic use.

#### Product Datasheet / Instruction for use

Dilution: ELISA 1:40.000 - 1:200.000, Immunohistochemistry (IHC) 1:2,000 - 1:10,000, Western Blot (WB) 1:4.000 -1:20.000

#### **Application Note:**

Mouse IgG2b secondary antibody is available in a variety of formats. Anti-Mouse IgG2b secondary antibody is suitable for ELISA, Immunohistochemistry, western blotting as well as other anti IgG2b antibody based assays.

### **Background Information**

Anti-Mouse IgG2b Antibody generated in goat detects reactivity to Mouse IgG2b (Gamma 2b chain). Secreted as part of the adaptive immune response by plasma B cells, immunoglobulin G constitutes 75% of serum immunoglobulins. IgG2, the second largest of IgG isotypes, comprises almost 25% of IgG and has a low affinity for binding to the Fc receptor of phagocytic cells. Secondary Antibodies are available in a variety of formats and conjugate types. When choosing a secondary antibody product, consideration must be given to species and immunoglobulin specificity, conjugate type, fragment and chain specificity, level of cross-reactivity, and host-species source and fragment composition.

### Safety Information

This reagent contains sodium azide (a poisonous and hazardous substance) as preservative. Although this concentration is not regarded as dangerous to health, appropriate measures should be taken to avoid skin and eye contact, inhalation, and ingestion. Standard Laboratory Practices should be followed when handling this material.

### Disclaimer

This product is warranted to perform in conformance with product specifications and to be free from defects in material and workmanship. Products are supplied for research use only. The warranty provided herein is valid only when used by properly trained individuals. Unless otherwise stated, this warranty is limited to one year from date of shipment when the product is subjected to normal, proper and intended usage. Buyer's exclusive remedy for non-conforming products during the warranty period is limited to replacement of or refund for the non-conforming product(s). There is no obligation to replace products as the result of accident or disaster or inappropriate use of the products in a manner for which they were not designed, or improper storage and handling of the products.

This product is for In Vitro experimental use only. Not for Therapeutic or Diagnostic use.
