

Goat IgG anti-Mouse IgG (H+L)-Biotin, MinX Bo,Ck,Go,Gp,Hm,Ho,Hu,Rb,Rt,Sh

General Information

Catalog Number: SEC-183154	Physical State:	Lyophilized		
Quantity: 1 mg	Reconstitution Volume:	1.0 mL		
	Reconstitution Buffer:	Restore with deionized water (or equivalent)		
	Shipping Conditions:	at room temperature		
	Product Expiration	Expiration date is one (1) year from date of opening.		
Antibody Host / Format	I			
Host Species: Goat	Clonality / Isotype / Clon	ne: polyclonal Ig		
Antibody Format: IgG whole molecule	Concentration:	1.0 mg/mL by UV absorbance at 280 nn		
	Conjugation:	Biotin		
	Maximum Excitation / Er	mission: /		
Specificity	1			
Target Species: Mouse	Immunogen:	Mouse IgG whole molecule		
Antibody Specificity: IgG (H+L)	Mouse Secondary Antibody conjugate was prepared from monospecific antiserum by immunoaffinity chromatography using Mouse IgG coupled to agarose beads followed by solid phase adsorption(s) to remove any unwanted reactivities. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-biotin, anti-Goat Serum, Mouse IgG and Mouse Serum. No reaction was observed against Bovine, Chicken, Goat Guinea Pig, Hamster, Horse, Human, Rabbit, Rat and Sheep Serum Proteins.			
	unwanted reactivities. A single precipitin arc again Mouse Serum. No reactio Guinea Pig, Hamster, Hor	ist anti-biotin, anti-Goat Serum, Mouse IgG and on was observed against Bovine, Chicken, Goat,		
	unwanted reactivities. A single precipitin arc again Mouse Serum. No reactio Guinea Pig, Hamster, Hor Proteins. Minimal Cross Reactivity	ist anti-biotin, anti-Goat Serum, Mouse IgG and on was observed against Bovine, Chicken, Goat,		
Formulation, Transport and Storage	unwanted reactivities. A single precipitin arc again Mouse Serum. No reactio Guinea Pig, Hamster, Hor Proteins. Minimal Cross Reactivity	nst anti-biotin, anti-Goat Serum, Mouse IgG and on was observed against Bovine, Chicken, Goat, rse, Human, Rabbit, Rat and Sheep Serum r: Bovine, Chicken, Goat, Guinea Pig, Hamster		
Storage Buffer:0.02 M PotassiumPhosphate, 0.15 M Sodium Chloride, pH 7.2Stabilizer:10 mg/mL Bovine Serum	unwanted reactivities. A single precipitin arc again Mouse Serum. No reactiv Guinea Pig, Hamster, Hor Proteins. Minimal Cross Reactivity generally, Horse Store second antibody at aliquot secondary antibor freezing and thawing. Ce standing at room temper	Ast anti-biotin, anti-Goat Serum, Mouse IgG and on was observed against Bovine, Chicken, Goat, rse, Human, Rabbit, Rat and Sheep Serum r: Bovine, Chicken, Goat, Guinea Pig, Hamster , Human, Rabbit, Rat, Sheep 4° C prior to restoration. For extended storage dy and freeze at -20° C or below. Avoid cycles of entrifuge product if not completely clear after ature. This product is stable for several weeks		
Storage Buffer: 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2	unwanted reactivities. A single precipitin arc again Mouse Serum. No reactiv Guinea Pig, Hamster, Hor Proteins. Minimal Cross Reactivity generally, Horse Store second antibody at aliquot secondary antibo freezing and thawing. Ce standing at room temper 4° C as an undiluted liquit	Ast anti-biotin, anti-Goat Serum, Mouse IgG and on was observed against Bovine, Chicken, Goat, rse, Human, Rabbit, Rat and Sheep Serum T: Bovine, Chicken, Goat, Guinea Pig, Hamster , Human, Rabbit, Rat, Sheep 4° C prior to restoration. For extended storage dy and freeze at -20° C or below. Avoid cycles of entrifuge product if not completely clear after ature. This product is stable for several weeks d. Dilute only prior to immediate use.		
Storage Buffer:0.02 M PotassiumPhosphate,0.15 M Sodium Chloride,Phosphate,0.15 M Sodium Chloride,Stabilizer:10 mg/mL Bovine SerumAlbumin (BSA) - Immunoglobulin and Protease	unwanted reactivities. A single precipitin arc again Mouse Serum. No reactiv Guinea Pig, Hamster, Hor Proteins. Minimal Cross Reactivity generally, Horse Store second antibody at aliquot secondary antibor freezing and thawing. Ce standing at room temper	Ast anti-biotin, anti-Goat Serum, Mouse IgG and on was observed against Bovine, Chicken, Goat, rse, Human, Rabbit, Rat and Sheep Serum r: Bovine, Chicken, Goat, Guinea Pig, Hamster , Human, Rabbit, Rat, Sheep 4° C prior to restoration. For extended storage dy and freeze at -20° C or below. Avoid cycles of entrifuge product if not completely clear after ature. This product is stable for several weeks		

This product is for In Vitro experimental use only. Not for Therapeutic or Diagnostic use.

Product Datasheet / Instruction for use

Application:	ELISA, Immunohistochemistry (IHC), Immunohistochemistry (Paraffin-embedded Sections),
	Immunohistochemistry (frozen sections), Western Blot

Dilution: ELISA 1:100.000 - 1:800.000, Immunohistochemistry (IHC) 1:1,000 - 1:5,000, Western Blot (WB) 1:2.000 -1:10.000

Application Note:

Conjugated Secondary Antibodies are ideal for western blot and are available in a variety of formats and conjugate types.

Background Information

Anti-Mouse IgG Biotin Antibody generated in goat detects reactivity to Mouse IgG. Secreted as part of the adaptive immune response by plasma B cells, immunoglobulin G constitutes 75% of serum immunoglobulins. Immunoglobulin G binds to viruses, bacteria, as well as fungi and facilitates their destruction or neutralization via agglutination (and thereby immobilizing them), activation of the compliment cascade, and opsinization for phagocytosis. The whole IgG molecule possesses both the F(c) region, recognized by high-affinity Fc receptor proteins, as well as the F(ab) region possessing the epitope-recognition site. Both the Heavy and Light chains of the antibody molecule are present. Secondary Antibodies are available in a variety of formats and conjugate types. When choosing a secondary antibody product, consideration must be given to species and immunoglobulin specificity, conjugate type, fragment and chain specificity, level of cross-reactivity, and host-species source and fragment composition.

Safety Information

This reagent contains sodium azide (a poisonous and hazardous substance) as preservative. Although this concentration is not regarded as dangerous to health, appropriate measures should be taken to avoid skin and eye contact, inhalation, and ingestion. Standard Laboratory Practices should be followed when handling this material.

Disclaimer

This product is warranted to perform in conformance with product specifications and to be free from defects in material and workmanship. Products are supplied for research use only. The warranty provided herein is valid only when used by properly trained individuals. Unless otherwise stated, this warranty is limited to one year from date of shipment when the product is subjected to normal, proper and intended usage. Buyer's exclusive remedy for non-conforming products during the warranty period is limited to replacement of or refund for the non-conforming product(s). There is no obligation to replace products as the result of accident or disaster or inappropriate use of the products in a manner for which they were not designed, or improper storage and handling of the products.

This product is for In Vitro experimental use only. Not for Therapeutic or Diagnostic use.
