Product Datasheet / Instruction for use

Rabbit IgG anti-Mouse IgG (F(ab')2)-Biotin, MinX Hu

General Information

Catalog Number: SE	EC-183319	Physical State:	Lyophilized
Quantity:	1 mg	Reconstitution Volume:	1.0 mL
		Reconstitution Buffer:	Restore with deionized water (or equivalent)
		Shipping Conditions:	at room temperature
		Product Expiration	Expiration date is one (1) year from date of opening.
Antibody Host / For	mat		
Host Species: Ra	abbit	Clonality / Isotype / Clon	e: polyclonal Ig
Antibody Format: Ig	G whole molecule	Concentration:	1.0 mg/mL by UV absorbance at 280 nn
		Conjugation:	Biotin
		Maximum Excitation / Emission: /	
Specificity	I		
Target Species:	Mouse	Immunogen:	Mouse IgG F(ab')2 fragment
Antibody Specificity: IgG (F(ab')2 Fragment)		This product was prepared from monospecific antiserum by immunoaffinity chromatography using Mouse IgG coupled to agarose beads followed by solid phase adsorption(s) to remove any unwanted reactivities. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-biotin, anti-Rabbit Serum, Mouse IgG, Mouse IgG F(ab')2 and Mouse Serum. No reaction was observed against Mouse IgG F(c) or Human Serum Proteins.	
		precipitin arc against anti IgG F(ab')2 and Mouse Se	-biotin, anti-Rabbit Serum, Mouse IgG, Mouse erum. No reaction was observed against Mouse
		precipitin arc against anti IgG F(ab')2 and Mouse Se	i-biotin, anti-Rabbit Serum, Mouse IgG, Mouse erum. No reaction was observed against Mouse Proteins.
Formulation, Transp	oort and Storage	precipitin arc against anti IgG F(ab')2 and Mouse Se IgG F(c) or Human Serum	i-biotin, anti-Rabbit Serum, Mouse IgG, Mouse erum. No reaction was observed against Mouse Proteins.

Product Datasheet / Instruction for use

Dilution: ELISA 1:20.000 - 1:100.000, Immunohistochemistry (IHC) 1:1,000 - 1:5,000, Western Blot (WB) 1:2.000 -1:10.000

Application Note:

This product has been assayed against 1.0 ug of Mouse IgG in a standard capture ELISA using Peroxidase Conjugated Streptavidin #S000-03 and ABTS (2,2'-azino-bis-[3-ethylbenthiazoline-6-sulfonic acid]) code # ABTS-100 as a substrate for 30 minutes at room temperature. A working dilution of 1:20,000 to 1:87,000 of the reconstitution concentration is suggested for this product.

Background Information

Anti-Mouse IgG F(ab')2 Biotin antibody generated in rabbit recognizes the dimeric Fab portion of the mouse IgG molecule. Mouse IgG F(ab')2 is a proteolytic fragment of immunoglobulin G (IgG) obtained by limited digestion with the enzyme pepsin under controlled conditions of temperature, time and pH. F(ab')2 molecules lack the Fc portion of IgG and therefore receptors that bind mouse IgG F(c) will not bind mouse IgG F(ab')2 molecules. Secondary Antibodies are available in a variety of formats and conjugate types. When choosing a secondary antibody product, consideration must be given to species and immunoglobulin specificity, conjugate type, fragment and chain specificity, level of cross-reactivity, and host-species source and fragment composition.

Safety Information

This reagent contains sodium azide (a poisonous and hazardous substance) as preservative. Although this concentration is not regarded as dangerous to health, appropriate measures should be taken to avoid skin and eye contact, inhalation, and ingestion. Standard Laboratory Practices should be followed when handling this material.

Disclaimer

This product is warranted to perform in conformance with product specifications and to be free from defects in material and workmanship. Products are supplied for research use only. The warranty provided herein is valid only when used by properly trained individuals. Unless otherwise stated, this warranty is limited to one year from date of shipment when the product is subjected to normal, proper and intended usage. Buyer's exclusive remedy for non-conforming products during the warranty period is limited to replacement of or refund for the non-conforming product(s). There is no obligation to replace products as the result of accident or disaster or inappropriate use of the products in a manner for which they were not designed, or improper storage and handling of the products.

This product is for In Vitro experimental use only. Not for Therapeutic or Diagnostic use.
