Antibody Format: IgG whole molecule Concentrati Conjugation Maximum E Specificity Maximum E Target Species: Rabbit Immunogen Antibody Specificity: IgG (H+L) This product Minimal Crope This product Securities. Precipitin ar Chicken Seru Minimal Crope Storage Buffer: 0.05 M Tris Chloride, 0.15M Preservative Sodium Chloride, 0.001M Magnesium Store vial at Store vial at				
Specificity Maximum E Target Species: Rabbit Immunogen Antibody Specificity: IgG (H+L) This product immunoaffit beads follow reactivities. precipitin ar Chicken Seru Minimal Cross Formulation, Transport and Storage Preservative Storage Buffer: 0.05 M Tris Chloride, 0.15M Preservative Sodium Chloride, 0.001M Magnesium Store vial at Store vial at	sotype / Clone: polyclonal Ig			
Specificity Immunogen Target Species: Rabbit Immunogen Antibody Specificity: IgG (H+L) This product immunoaffit beads follow reactivities. precipitin ar Chicken Seru Minimal Cross Formulation, Transport and Storage Minimal Cross Preservative Sodium Chloride, 0.05 M Tris Chloride, 0.15M Preservative Store vial at	ion: 1 mg/ml by UV absorbance at 280 nm			
Specificity Target Species: Rabbit Antibody Specificity: IgG (H+L) This product immunoaffit beads follow reactivities. precipitin ar Chicken Sero Minimal Cross Sodium Chloride, 0.05 M Tris Chloride, 0.15M Sodium Chloride, 0.001M Magnesium Chloride. 0.0001M Zinc Chloride. 50% (v/v)	Alkaline Phosphatase			
Target Species: Rabbit Immunogen Antibody Specificity: IgG (H+L) This product immunoaffit beads follow reactivities. precipitin ar Chicken Sert Formulation, Transport and Storage Minimal Cross Minimal Chicken Sert Sodium Chloride, 0.05 M Tris Chloride, 0.15 M Sodium Chloride, 0.001 M Magnesium Chloride, 0.001 M Zinc Chloride, 50% (v/v) Preservative Store vial at St	Maximum Excitation / Emission: /			
Antibody Specificity: IgG (H+L) This product immunoaffit beads follow reactivities. precipitin ar Chicken Sert Minimal Croce Minimal Croce Storage Buffer: 0.05 M Tris Chloride, 0.15M Preservative Store vial at Chloride, 0.001M Magnesium Chloride, 0.0001M Zinc Chloride, 50% (v/v) Store vial at Chloride at Chloride, 50% (v/v)				
immunoaffin beads follow reactivities. precipitin ar Chicken Seru Minimal Cro Formulation, Transport and Storage Storage Buffer: 0.05 M Tris Chloride, 0.15M Sodium Chloride, 0.001M Magnesium Chloride, 0.0001M Zinc Chloride, 50% (v/v)	n: Rabbit IgG whole molecule			
Formulation, Transport and Storage Storage Buffer: 0.05 M Tris Chloride, 0.15M Sodium Chloride, 0.001M Magnesium Preservative Chloride, 0.0001M Zinc Chloride, 50% (v/v) Store vial at	This product was prepared from monospecific antiserum by immunoaffinity chromatography using Rabbit IgG coupled to agarose beads followed by solid phase adsorption(s) to remove any unwanted reactivities. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Alkaline Phosphatase (calf intestine), anti- Chicken Serum, Rabbit IgG and Rabbit Serum.			
Storage Buffer:0.05 M Tris Chloride, 0.15MPreservativeSodium Chloride, 0.001M MagnesiumStore vial atChloride, 0.0001M Zinc Chloride, 50% (v/v)Store vial at	Minimal Cross Reactivity: none			
Sodium Chloride, 0.001M Magnesium Chloride, 0.0001M Zinc Chloride, 50% (v/v)				
Chloride. 0.0001M Zinc Chloride. 50% (v/v) Store vial at	Preservatives: 0.01% (w/v) Sodium Azide			
	Store vial at 4° C before opening. DO NOT FREEZE. This product is stab at 4° C as an undiluted liquid. Dilute only prior to immediate use. Freezing alkaline phosphatase conjugates will result in a substantial loss			
Stabilizer:10 mg/mL Bovine Serumof enzymaticAlbumin (BSA) - Immunoglobulin and Protease freeStorage Ten	aline phosphatase conjugates will result in a substantial loss			
Application Recommendation	c activity.			

Application: ELISA, Immunohistochemistry (IHC), Immunohistochemistry (Paraffin-embedded Sections), Immunohistochemistry (frozen sections), Western Blot

This product is for In Vitro experimental use only. Not for Therapeutic or Diagnostic use.

Product Datasheet / Instruction for use

Dilution: ELISA 1:2,000 - 1:10,000, Immunohistochemistry (IHC) 1:200 - 1:1,000, Western Blot (WB) 1:500 - 1:2.500

Application Note:

Anti-Rabbit IgG Alk Phos conjugate is suitable for immunoblotting (western or dot blot), ELISA, immunoelectron microscopy and immunohistochemistry as well as other antibody-based enzymatic assays requiring lot-to-lot consistency.

Background Information

Anti-Rabbit IgG (H&L) Alkaline Phosphatase Antibody generated in chicken detects reactivity to Rabbit IgG. Secreted as part of the adaptive immune response by plasma B cells, immunoglobulin G constitutes 75% of serum immunoglobulins. Immunoglobulin G binds to viruses, bacteria, as well as fungi and facilitates their destruction or neutralization via agglutination (and thereby immobilizing them), activation of the compliment cascade, and opsinization for phagocytosis. The whole IgG molecule possesses both the F(c) region, recognized by high-affinity Fc receptor proteins, as well as the F(ab) region possessing the epitope-recognition site. Both the Heavy and Light chains of the antibody molecule are present. Secondary Antibodies are available in a variety of formats and conjugate types. When choosing a secondary antibody product, consideration must be given to species and immunoglobulin specificity, conjugate type, fragment and chain specificity, level of cross-reactivity, and host-species source and fragment composition.

Safety Information

This reagent contains sodium azide (a poisonous and hazardous substance) as preservative. Although this concentration is not regarded as dangerous to health, appropriate measures should be taken to avoid skin and eye contact, inhalation, and ingestion. Standard Laboratory Practices should be followed when handling this material.

Disclaimer

This product is warranted to perform in conformance with product specifications and to be free from defects in material and workmanship. Products are supplied for research use only. The warranty provided herein is valid only when used by properly trained individuals. Unless otherwise stated, this warranty is limited to one year from date of shipment when the product is subjected to normal, proper and intended usage. Buyer's exclusive remedy for non-conforming products during the warranty period is limited to replacement of or refund for the non-conforming product(s). There is no obligation to replace products as the result of accident or disaster or inappropriate use of the products in a manner for which they were not designed, or improper storage and handling of the products.

This product is for In Vitro experimental use only. Not for Therapeutic or Diagnostic use.
