Wash Solution Concentrate (50x)

Description: Wash Solution Concentrate (50x) is designed to provide optimal rinsing of routine or special stains between steps. In addition, this reagent can be used as a dilution buffer for most aqueous stains. This product is compatible with hand staining procedures and most automated systems.

Appearance: Transparent liquid, slightly yellow. Discard if reagent becomes cloudy.

Uses: Routine and Special Stain procedures.
Stain diluent.

Limitations: Do not use past expiration date.

Availability:	REF	Volume
	WSC-1	4 x 200 ml
	WSC999	1000 ml
	WSC20000	20 liters

Storage: Store at 18-25°C. Product is stable for 24 months from the date of manufacture.

Procedure:

1. Add 200ml of Wash Solution Concentrate (50x) to 9.8 liters of DI/Distilled water and mix thoroughly at low speed to avoid "foaming" the reagent.
2. Mix fresh daily for optimal results.

Precautions: Do not pipette by mouth.
Avoid contact with skin and eyes.
Observe all federal, state and local environmental regulations regarding disposal.

Storage: 18° C  25° C
